

# HIBERNATION SONG

(By Nathalia Palis)

**D**  
There are several little animals  
**G A D**  
That eat a ton in the fall  
**D**  
Then they sleep all winter long  
**G A D**  
Curled up like a ball  
**G D**  
They hibernate... they hibernate...  
**A D**  
They go to sleep all winter long.

**D G A D**  
Let's pretend to be a bear and stomp all around.  
**D G A D**  
A bear likes to sleep in a cave, all winter long  
**G D**  
Now stomp, stomp stomp around  
**A D**  
And find your cave  
**G A D**  
Because bears in the winter  
Like to....

**G D**  
They hibernate... they hibernate...  
**A D**  
They go to sleep all winter long.

## **Alternative Animals and movements**

Bats - Fly around. - Cave  
Snake - Slither - a hole in the ground  
Frog - Jump - a hole in the mud
